

I urge the federal government to allow New Jersey's Do Not Call law to stand as it is. Please do not make it any easier for telemarketers - if I have conducted business with a company within the past 18 months, that certainly does NOT mean that I want them calling my home for telemarketing purposes. Please leave the law alone in NJ. Don't be afraid to set a precedence, send a clear message to telemarketers and pave the way for other states !!!!
